

# AliExpress Conflict Oracle

UAV, UGV, etc

# DRONES

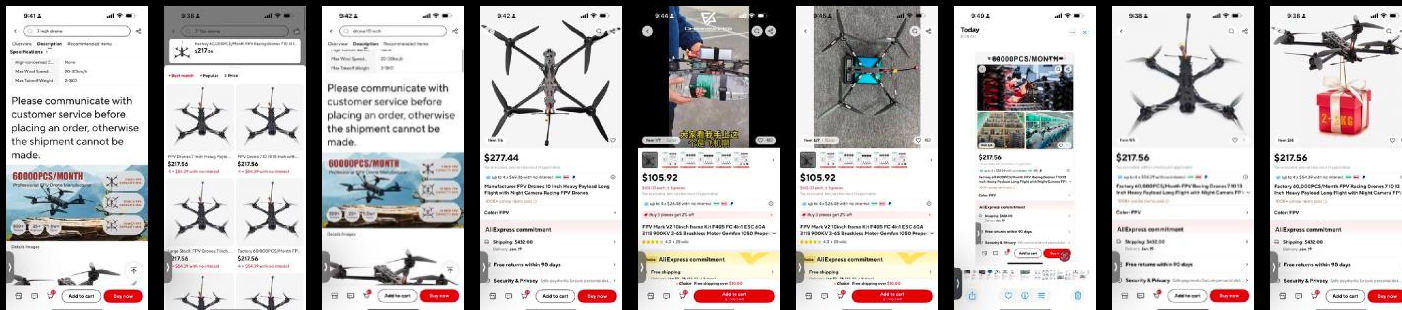

## Lots of Drones

Numerous Factories claiming 60,000 units per month

STM32F4, Betaflight,  
ELRS 2.4Ghz RC most common. Not surprising.

Volume Pricing for 10" Long Range Quads VERY  
VERY competitive

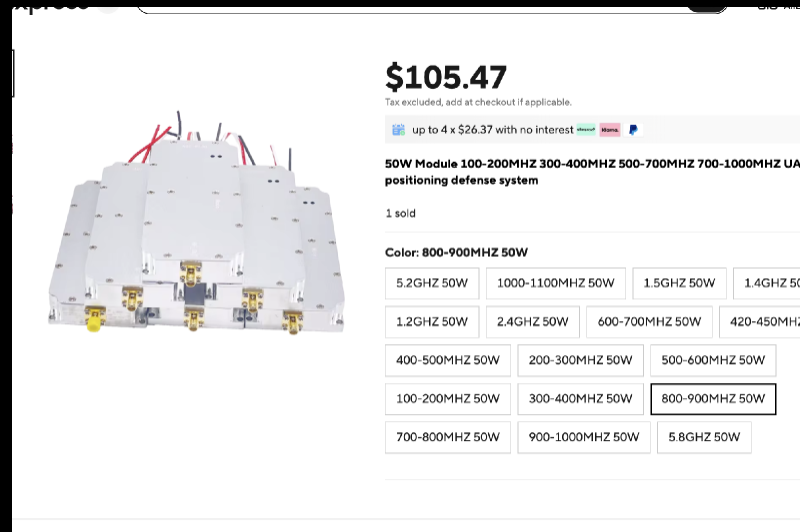

# JAMMERS

Supply seems ample

Fabrication quality, pretty good with few hand rework.

Manufacturer likely dumping imperfect jammers on Ali?

Raw RF jamming. Not particularly effective. No protocol-level jamming.

# FIBER OPTIC COUNTER EW TETHER

As seen on TV. I first noticed units on Ali in Nov 2024.

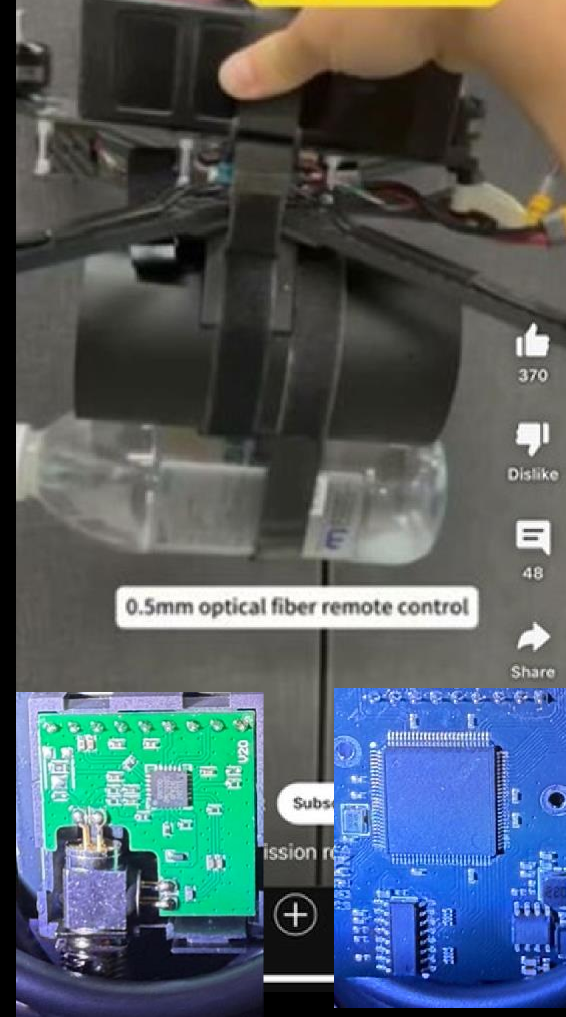

New fabrication using EOL'd FPGA

Bitstream build timestamp in Q2 2022 on sample

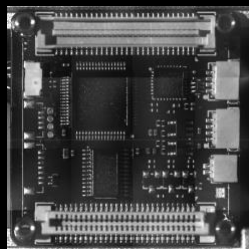

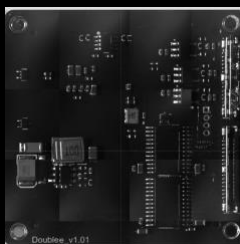

BOM cost, design etc, clearly not consumer product

PlugnPlay. Carries Bi-directional UART (for CSRF)  
and Video over single fiber strand

Works well.

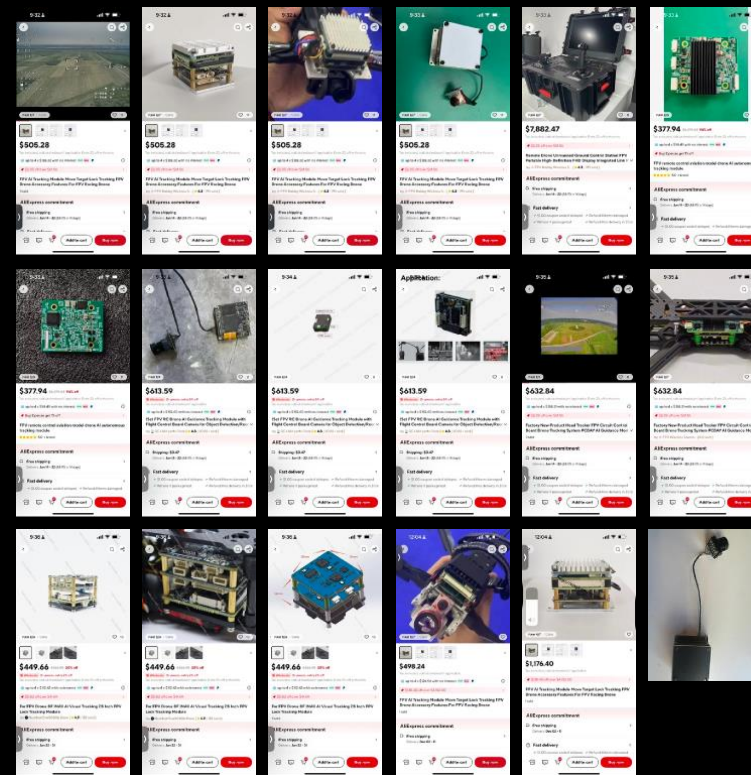

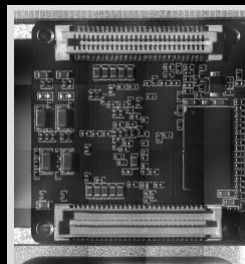

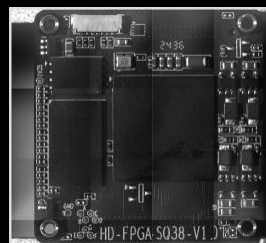

# AI Targeting Module

Appears to have 3+ hardware designs on market

Designed to integrate with betaflight

Human, Vehicle, and Boat Recognition Multi-Target Monitoring

SIYI AI tracking module supports target recognition and tracking b  
record pedestrians, vehicles (including cars, trucks, and buses), a

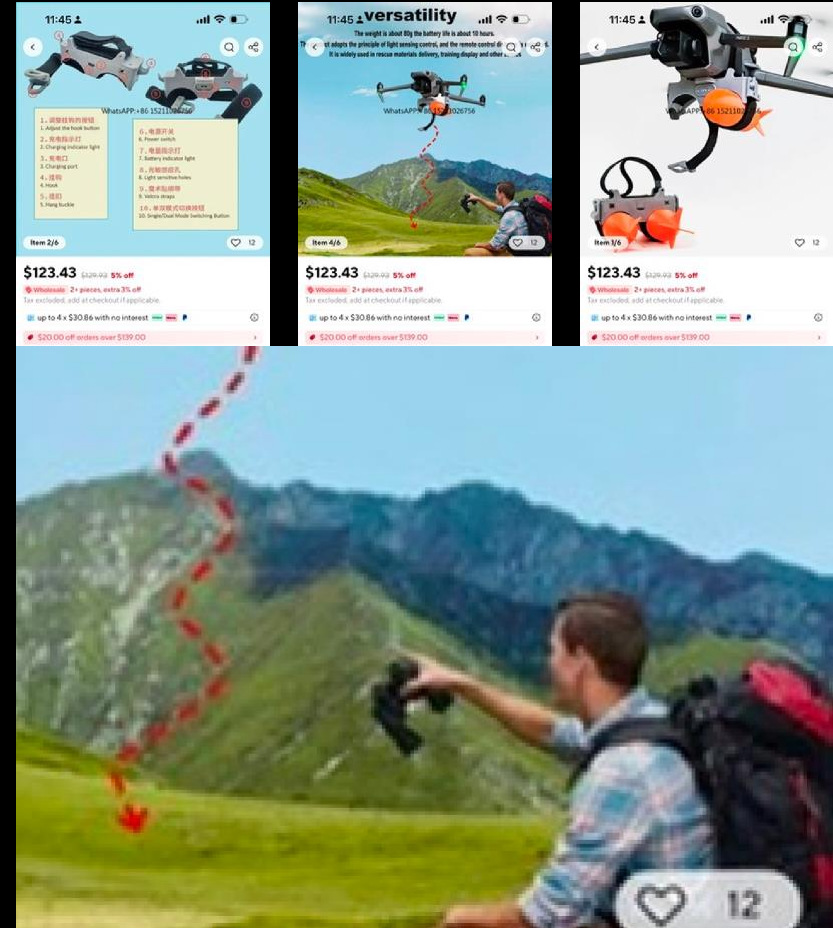

\*addendum

# Payload Droppers

3D printed. Foreign design.

Cheap, functional for one time use.

# Reading Tea Leaves

Unmanned Ground Vehicles Becoming More of a Thing
